

# ANAN ALMASRI

Full-Stack AI Automation Engineer · Founder, Anan Technology LLC

Miami, FL | [jobs@ananalmasri.com](mailto:jobs@ananalmasri.com) | [ananalmasri.com](http://ananalmasri.com) | [linkedin.com/in/ananalmasri](https://linkedin.com/in/ananalmasri) | +1 (561) 592-2619

---

## SUMMARY

Full-stack AI automation engineer and serial founder with a mechanical engineering foundation and a track record spanning executive leadership, product development, and hands-on system building. Currently designs and ships end-to-end AI infrastructure — automated workflows, self-hosted agents, and production backends — after a decade leading construction, facilities, and product operations across the US and the Middle East. Bilingual (English/Arabic) with direct MENA market experience.

## KEY SKILLS

**AI & Automation:** Claude API, Claude Code, n8n, bolt.diy, RAG, AI Agents, Prompt Engineering

**Full-Stack Development:** React, TypeScript, Tailwind CSS, FastAPI, Python, Supabase/PostgreSQL, REST APIs, Webhooks

**Cloud & Infrastructure:** AWS, Google Cloud, Firebase, Hetzner VPS, Docker, Cloudflare Tunnel, Infisical, NocoDB

**Product & Leadership:** P&L Ownership, Team Leadership, Product Strategy, Stakeholder Management, MEP Design, Financial Reporting

---

## PROFESSIONAL EXPERIENCE

### Founder & AI Automation Consultant

2023 – Present

Anan Technology LLC — Miami, FL

- Design and deploy full-stack AI automation systems end to end: n8n workflows, Supabase backends, and self-hosted AI agents, running on self-managed VPS infrastructure.
- Shipped a portfolio of AI-driven products including AnanOS (business OS with CRM and accounting), Pocket CFO (agentic financial dashboard), ANORA (automated bank-statement-to-P&L pipeline), RAQEED (contract risk analysis), and SignDeal (bilingual e-signature platform).
- Operates the full stack independently — architecture, backend, frontend, DevOps, and AI integration — for every product built.

### Senior Product Manager, Robotic Imaging — Brickell, Miami

Aug 2025 – Mar 2026

Led product direction on robotics and imaging systems.

### Founder & Product Architect

Feb 2022 – Aug 2025

JOBR — Miami, FL

- Founded and architected JOBR, an ecosystem of five interconnected apps connecting B2B and B2C platforms (marketplace, POS, driver app), from Figma concept to live product.
- Built and led a 13-person cross-functional team (designers, developers, PM, accountant, CPA); held full P&L, budgeting, and forecasting ownership.
- Integrated Stripe Tap to Pay and point-of-sale on iPhone across the platform.

### VP of Product Development

Apr 2021 – Jan 2023

Purekana — Miami, FL

- Led end-to-end product development for a CBD/wellness brand; launched 16 new product lines from concept to warehouse shelf.
- Built and launched a B2B eCommerce platform on Shopify with a custom admin dashboard for invoicing, order tracking, and client payments.
- Created a tiered B2B pricing strategy across wholesalers, distributors, and retailers; audited financial practices and restructured P&L tracking.

### Chief Executive Officer

Aug 2015 – May 2021

Lake Tiberias — Saudi Arabia (family-owned construction: swimming pools, fountains, SPASA facilities)

- Held full P&L accountability, managing AR/AP and filing quarterly audit reports; conducted final quality sign-offs on all MEP designs for SPASA compliance.
- Achieved a 25% reduction in purchasing costs and generated 400,000 SAR in new recurring revenue via annual maintenance contracts.

- Built in-house iOS software cutting design calculation time from 2 days to 30 minutes; introduced a time-stamp system improving labor cost estimation accuracy by 60%.
- Led company-wide rollout of Wrike project management software with no disruption to ongoing projects.

*Concurrently founded and ran Coin Arabia FZE, a cryptocurrency exchange platform, 2017–2019.*

## COO / Co-Founder

Apr 2014 – Aug 2015

*Worry Free Boat Club — Dubai, UAE*

- Co-founded and launched a boat-fleet membership startup; developed the market entry strategy and led marketing, events, and customer relationship management.
- Secured a partnership with Emirates Aviation Club generating 60 new members over 4 years and 1.8M AED in revenue; signed 40 customers within the first 4 months of launch (1.6M AED).

## ADDITIONAL EXPERIENCE

**Facility Manager, Total Care** — client site: Aramex, Dubai, UAE

Sep 2011 – Nov 2013

*Managed warehouse and office facilities; achieved 17% energy savings via motion sensor lighting and 22% water/electricity savings via VFD pump installation; implemented CMMS software company-wide; raised monthly job completion rate from 78% to 95%.*

**Projects Coordinator, EMCO Engineering** — Dubai, UAE

Mar 2011 – Sep 2011

**Projects Mechanical Engineer, AlMalki Establishment / Almalki Fountains** — Riyadh, Saudi Arabia

Jun 2009 – Mar 2011

*Built Excel-based MEP equipment and pipe/tank sizing software for swimming pool design; self-taught and constructed a dancing fountain control system in Al-Khubar using OASE technology.*

## EDUCATION

**MSc, Facilities Management**

2014 – 2015

*Heriot-Watt University, Dubai*

**BSc, Mechanical Engineering**

2003 – 2009

*American University of Sharjah, UAE*

Professional memberships: CIBSE, MEFMA (since 2013)

## SELECTED PROJECTS

**AnanOS** — self-hosted, all-in-one business OS with CRM and accounting modules, AI throughout.

**Pocket CFO** — read-only financial dashboard with an agentic AI chat for internal CFOs.

**ANORA** — automated bank-statement-to-categorized-P&L pipeline with cross-tool weekly reporting.

**RAQEEB** — AI contract analysis, risk flagging, and counter-language generation.

**SignDeal** — bilingual Arabic/English e-signature platform with proper RTL document generation.

**Mizaan** ميزان — AI-powered business OS for SMBs, one-time ownership pricing model.
